

**INNOVATION AND CUSTOM PROJECTS**

Development of mould Project with CAD-CAM and 3D technologie according to customer requests.  
 Design of custom moulds, prototype and tests in block making machine for evaluating their technical feasibility.  
 We advise on aggregates, vibration cycle, pieces geometry for the best operation and life of mould, from our experience as manufacturer of block macking machines Rometa.

**MAINTENANCE OF MOULDS:**

Solution of maintenance, repair and cleaning of mould box with turn tables. Tools and special tooling.  
 Solution of maintenance and cleaning of contra-mould.

**HISTORY**

**ROMETA SA**, manufacturer of machinery for producing concrete pieces since 1956, is consolidated in his activity of moulds with the integration of **MOLDES y LAPEADOS, SL**, who contributes with his expertise of more than 30 years on the sector.

A new Brand is born, **ToForm**.

Moulds for the concrete industry

**ToFoRM** by ROMETA

[www.toform.net](http://www.toform.net)

**MOULDS TOFORM**

TOFORM are moulds for all models and machineries brands producing pavers, kerbstones, ceiling blocks, bricks and any concrete precast product:

- Mono-bloc moulds
- Removable moulds
- Hydraulic moulds
- Moulds with machined and removable dividing plates
- Moulds with removable cavities
- Spare parts of moulds interchangeable pieces

## PERFORMANCES AND QUALITY

We are using steel alloys and the most suitable treatments to reduce wear and increase the number of mould cycles.

We manufacture the following moulds:

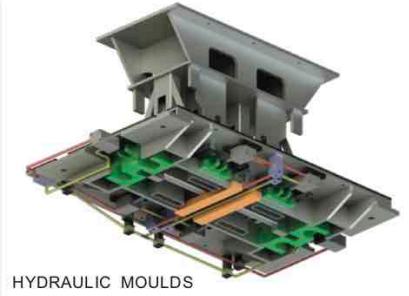

- Steel with wear resistance of 500 HB ( Brinell )
- Treatment with wear resistance of 900 Vickers
- High performances of wear 64-66 HRC (Rockwell C)
- Heat treatment
- Mechanized division doing easy to demoulding

Moulds designed to production of concrete pieces , saving time of machine setting and improving filling, compacting and demoulding.

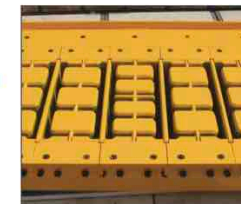

ToForm uses CNC-controlled machinery for offering accuracy of all moulds from our moderns facilities located in the village Sant Miquel de Balenyà, BARCELONA, Spain.

ToForm is formed of a people team with a wide experienced to provide the best advice to the customer.

ToForm exports all over the world and finds the right solution for our customer needs.
